Concept 05 — Progress Path / P

exampilot.com.ng

v1.0 • Brand Guidelines

Primary Logo

Full-color horizontal lockup with wordmark and website.

Dark Green
#0A302E

White
#FFFFFF

Standalone Symbol

The Progress Path / P — three ascending bars closed by an arc.

—

01

Ascending bars

Three rising bars encode measurable progress and momentum.

02

Closing arc

The signal-gold arc completes the P bowl and anchors the mark.

03

Standalone use

Reads clearly at any scale — from favicon to signage.

Active Brand Representation

The official ExamPilot identity in Dark Green and White.
Simple, modern, consistent across every touchpoint.

PHILOSOPHY
Progress. Clarity. Confidence.
Every step forward.

One Color Dark Green

For print, formal documents, and single-ink reproduction.

Ink: Dark Green (#10162C) • Use when full color is unavailable.

Primary Logo

The official ExamPilot lockup.
Use this as the default on most materials.

Ink: Dark Green (#10162C)
Background: White

Preferred Logo Applications

Full-color on light. Mono-light on dark. Nothing else.

ON LIGHT

Full-color primary logo on #F4F4F5 or #FFFFFF.

ON DARK

One-color light lockup on #10162C. Never place full-color on dark green.

App / Favicon Mark

Square symbol crop for browser tabs, PWAS, mobile app icons, and avatars.

Symbol locks to a 72% safe area inside each tile. Corners round proportionally for platform parity.

Logo Family Overview

Eight official variants — one coherent system.

Website Branding Lockup

Wordmark leads. The domain supports — never replaces — it.

ExamPilot

exampilot.com.ng

Hierarchy

The ExamPilot wordmark is the primary identifier. The domain sits secondary — smaller, lighter, and typographically distinct — to signal where the product lives without competing with the brand.

Clear Space & Minimum Size

One unit 'X' equals the symbol height. Never crowd, recolor, or distort.

CLEAR SPACE

X = symbol height

MINIMUM SIZE

24 px · Digital

12 mm · Print

Never scale the symbol below these thresholds — arc detail breaks.

Don't recolor

Don't distort

Don't rotate

Reinforce consistency — reproduce the mark cleanly, at approved sizes, on approved backgrounds only.

OFFICIAL LOGO SYSTEM

Concept 05

Progress Path / P

exampilot.com.ng

LOGO SYSTEM · CONCEPT 05

Primary Logo

Full-colour horizontal lockup: symbol plus ExamPilot wordmark, with the official website set as a subordinate identifier.

LOGO SYSTEM · CONCEPT 05

Standalone Symbol

The Progress Path / P mark works alone as an independent brand asset — three ascending bars closed by an arc.

01 Ascending bars

Three progress bars step upward, signalling growth and momentum.

02 Closing arc

The bowl completes the P silhouette in Signal Yellow for optimism.

03 Geometric grid

All elements are built on a shared 6px baseline for crisp rendering.

LOGO SYSTEM · CONCEPT 05

Compact Horizontal Logo

Tight lockup for navigation bars, mobile headers, and any small digital space where the primary lockup feels heavy.

COMPACT LOCKUP

Symbol height $\geq$ wordmark cap-height · gap = 12–16px

PRIMARY LOCKUP

Symbol $1.4\times$ wordmark cap-height · gap $\geq$ symbol $\times 0.25$

LOGO SYSTEM · CONCEPT 05

One-Colour Dark

Deep Navy monochrome lockup for print, embossing, single-plate reproduction, and formal documents on light stock.

The image shows the ExamPilot logo in a monochrome, dark navy blue. The logo consists of a stylized 'iP' icon followed by the word 'ExamPilot' in a bold, sans-serif typeface. The 'i' is represented by two vertical bars of increasing height, and the 'P' is a large, rounded letter. The text 'ExamPilot' is in a clean, modern font with a slight shadow or depth, giving it a three-dimensional appearance as if it might be embossed.

SINGLE INK · #10162C · DEEP NAVY

LOGO SYSTEM · CONCEPT 05

One-Colour Light

Paper white on Deep Navy for dark UI, apparel, and reversed-out placements. Preserves silhouette when colour is unavailable.

The image shows the ExamPilot logo in white on a dark navy background. The logo consists of a stylized 'P' formed by three vertical bars of increasing height, followed by the word 'ExamPilot' in a bold, sans-serif typeface.

SINGLE INK · #F4F4F5 · PAPER WHITE

LOGO SYSTEM · CONCEPT 05

Preferred Applications

Two approved primary placements — full colour on Paper, and Paper monochrome on Deep Navy. Choose based on background luminance.

ON LIGHT · FULL COLOUR

ON DARK · PAPER MONO

Use the full-colour lockup whenever background contrast allows. Switch to Paper monochrome on any surface darker than #4A5278 to protect accessibility (WCAG AA, 4.5:1 minimum).

LOGO SYSTEM · CONCEPT 05

App / Favicon Mark

Square icon crops of the Progress Path / P alone for favicons, PWA and mobile app tiles, and social avatars.

Use the standalone symbol only — never the wordmark — for favicon, PWA icon, mobile launcher, and social avatar contexts.

LOGO SYSTEM · CONCEPT 05

Logo Family Overview

One unified system, eight approved variants. Consistent geometry, proportion and brand voice across every surface.

LOGO SYSTEM · CONCEPT 05

Website Branding Lockup

The domain sits as a supporting identifier — visually subordinate to the wordmark, never a replacement for it.

The domain is a supporting brand element. Set it in the body typeface at 25–30% of the wordmark cap-height, never larger than the wordmark itself, and always separated by a hairline rule or clear space.

Clear Space & Minimum Size

One unit “X” equals the symbol height. Reserve at least 1X of clear space on every side; never reproduce the mark below the minimum.

Minimum size

Digital · full lockup	120 px wide
Digital · symbol only	24 px wide
Print · full lockup	24 mm wide
Print · symbol only	8 mm wide

Don't recolour

Never swap brand hues.

Don't distort

Preserve original ratio.

Don't crowd

Respect 1X clear space.
